

## Profile sheet MINT-Rallye

### Company name

Josef Weischer GmbH & Co.KG

### Homepage

[www.weischer.de](http://www.weischer.de)

### Brief description of the company

We are an owner-managed company with around 130 employees and use state-of-the-art production methods to manufacture models, molds, gauges and automated production systems for our customers. Our orders are varied and versatile. We work for the automotive industry, aviation, commercial vehicles, recreational vehicles and general industry. We have a long tradition of vocational training in our company, which we also implement very successfully. Many of our employees have already started their career with an apprenticeship with us. Come and join our team. We would be delighted to hear from you.

### Requirement profile

- For the apprenticeship, you should have a secondary school leaving certificate or high school diploma.
- We are happy to offer you a job if you have completed vocational training in toolmaking or mechanical engineering.
- An interest in technical processes and procedures.
- Ability to work in a team

### Apprenticeships

- Mechatronics technician (m/f/d)

- Technical model maker (m/f/d)
